JOINT REPORT OF THE VICE CHAIRMAN AND THE DIRECTOR

June 30, 1964

The Honorable Jimmie H. Davis
Governor of the State of Louisiana
Baton Rouge, Louisiana

Dear Governor Davis:

The Vice-Chairman and the Director of the Board of Administrators of the Charity Hospital of Louisiana at New Orleans submit the following report of the activities of the hospital for the fiscal year July 1, 1963 through June 30, 1964.

Mr. John W. Bowen was re-elected Vice Chairman of the Board and Dr. Leo J. Kerne was reappointed Director.

The following members continued to serve on the Board of Administrators:

His Excellency Governor Jimmie H. Davis, Ex-Officio President
Honorable John W. Bowen, Vice President
Honorable Leo J. Kerne, M. D. Director

| | |
|------------------------------------|-------------------------------------|
| Honorable Louis E. Thomas, Jr. | Honorable Thomas J. Bethune |
| Honorable Robert F. Azar, M.D. | Honorable Thomas C. Nugent |
| Honorable Irvin J. G. Janssen | Honorable Sam J. Arcuri |
| Honorable George Van Kuren | Honorable Sterling J. Robichaux |
| Honorable Rhodes J. Spedale, M.D. | Honorable Willard A. Ellender, M.D. |
| Honorable Don L. Peterson, D.D.S. | Honorable M. O. Miller, M.D. |
| Honorable Gilbert C. Tomskey, M.D. | Honorable A. N. Sam Houston, M.D. |
| Honorable David J. Vial, M.D. | |

The Members serving on the various committees are as follows:

Finance

Irvin J. G. Janssen, Chairman
Rhodes J. Spedale, M.D.
Thomas C. Nugent
John W. Bowen
Thomas J. Bethune

House

Louis E. Thomas, Jr., Chairman
Thomas C. Nugent
George Van Kuren
David J. Vial, M.D.
Sam J. Arcuri
John W. Bowen
Sterling J. Robichaux

Medical

A. N. Sam Houston, M.D., Chairman
John W. Bowen
M. O. Miller, M.D.
Donald L. Peterson, D.D.S.

Louis E. Thomas, Jr.
Irvin J. G. Janssen

The cost of operations increased \$1,134,293.98. The largest increase was in salary in the amount of \$607,632.45, although we had a slight decrease in employees during the year. We purchased \$132,987.00 worth of equipment during the year. The appropriation from the state for 1963-64 for the fiscal year was \$15,473,517.00. We received \$274,314.00 from Bond Liquidation Fund and Federal and Other Grants \$87,350.00.

During the year we remitted to the State Treasurer \$1,677,355.00 for patients services, fees and other miscellaneous items. In July 1963 the School of Medical Technology was approved by the Council on Medical Education and Hospital of the American Medical Association. The Bond and Building Commission allocated \$700,000.00 for renovation for the Student Nurses' Home. In January 1964 the State Bond and Building Commission allocated us \$388,000.00 to repair and waterproof the Professional Students Home, the Eve Butterworth Dibert Interne Home and the Dibert T. B. Building. Cimini and Meric were appointed architects for this project.

ACKNOWLEDGEMENTS

The Vice-Chairman and the Director of the hospital wish to express their appreciation to the Sisters of Charity for their splendid cooperation and excellent services rendered innumerable capacities; also, to the various members of the Board of Administrators for the valuable services rendered through this year and to the Department heads and the entire personnel of Charity Hospital for their wonderful loyalty and cooperation.

Respectfully submitted,

JOHN W. BOWEN
Vice Chairman
Board of Administrators

LEO J. KERNE, M.D.
Director

COMMENTS ON OPERATIONS

June 30, 1964

The cost of operations for the period July 1, 1963 to June 30, 1964, as compared with the same period last year increased \$1,134,293.98 as per the following summary:

| | 1964 | 1963 | Increase or Decrease* |
|----------------------------------|------------------|------------------|-----------------------|
| Salaries | \$ 10,825,086.95 | \$ 10,217,454.50 | \$ 607,632.45 |
| Food | 973,374.83 | 956,049.17 | 17,325.66 |
| Drug and Surgical Supplies | 2,008,284.36 | 1,824,812.21 | 183,472.15 |
| Repairs Maintenance | 264,245.59 | 276,823.76 | 12,578.17* |
| Other Operating Expenses | 1,767,569.85 | 1,429,027.96 | 338,541.89 |
| Total Cost of Operations | \$ 15,838,561.58 | \$ 14,704,267.60 | \$ 1,134,293.98 |

Cost of operations for the month of June, 1964, as compared with May, 1964 increased \$137,819.31 as per the following summary:

| | 1964 | 1963 | Increase or Decrease* |
|---|-----------------|-----------------|-----------------------|
| Salaries | \$ 897,490.07 | \$ 903,970.53 | \$ 6,480.46* |
| Food | 96,891.76 | 74,929.54 | 21,962.22 |
| Drugs and Surgical Supplies | 274,406.37 | 156,956.38 | 117,449.99 |
| Other Operating Expenses | 98,029.36 | 86,878.76 | 11,150.60 |
| Repairs and Maint. Bldg. and Equipment | 20,427.19 | 25,623.47 | 5,196.28* |
| Hosp. Cont. to Retirement Plan and FOAB | 62,152.25 | 63,219.01 | 1,066.76* |
| Total Cost of Operations | \$ 1,449,397.00 | \$ 1,311,577.69 | \$ 137,819.31 |

| ANALYSIS—PERSONAL SERVICE COST | COMPARATIVE | | Increase or Decrease* |
|--------------------------------|---------------|---------------|-----------------------|
| | June | May | |
| Resident Physicians | \$ 43,172.40 | \$ 43,615.48 | \$ 443.08* |
| Internes | 13,187.50 | 13,125.00 | 62.50 |
| All Other Staff Doctors | 29,450.06 | 28,056.18 | 1,393.88 |
| | \$ 85,809.96 | \$ 84,796.66 | \$ 1,013.30 |
| Registered Nurses | \$ 99,505.06 | \$ 105,216.23 | \$ 5,711.17* |
| Practical Nurses | 59,858.46 | 60,770.36 | 911.90* |
| Nurse Aides | 149,454.77 | 151,249.83 | 1,795.06* |
| Student Nurses | 1,040.00 | 3,349.00 | 2,309.00* |
| | \$ 309,858.29 | \$ 320,585.42 | \$ 10,727.13* |

CHARITY HOSPITAL OF LOUISIANA AT NEW ORLEANS

Annual Report of the Sisters' Division

July 1, 1963 - June 30, 1964

The leadership group in the three departments which comprise the Sisters' Division was given full support in today's complex work of managing the nursing service and housekeeping of the hospital and in planning and directing the education of student nurses. Functioning at a high professional level, the administrative and teaching staffs have made progress in the critical areas of quality nursing care and nursing education. The annual reports of the departments clearly express the accomplishments and current trends in practice and indicate future plans with recommendations for action.

The Nursing Service Department has worked diligently toward maintaining a capable and stable nursing staff. Undaunted by economic pressure, over-crowded wards and out-moded equipment, it has initiated changes which have improved the quality of nursing care to the patients and is optimistic, yet realistic, about the future of nursing at Charity Hospital.

Maintaining a safe, comfortable and hygienic hospital environment, supplying linen to the wards and living quarters, renovating mattresses and pillows, and keeping the hospital furniture in good repair are routine services rendered by the Housekeeping Department. Consistent efforts aimed at upgrading the quality and reliability of these services have produced good results. This accomplishment is worthy of note, for the department lacks sufficient personnel to extend its much-needed services over a 24-hour day, seven days a week. This need is evident on the floors with a high patient census and the resultant heavy traffic.

The School of Nursing has experienced a large turnover in its teaching personnel. Twenty-three new instructors joined the faculty and all participated in the teacher-education programs which were planned to better prepare the instructors for the serious business of educating professional nurses. Participation in meetings, conferences and community activities involving health needs and clinical information was encouraged to develop within the teaching staff a broad spectrum of education for nursing. Curriculum development moved along concurrently with these activities, and the 151 new admissions to the Charity Hospital School of Nursing will benefit greatly by this sound planning.

Changes in assignment among the Sisters were few this year. Sister Gertrude, science instructor for the School of Nursing, was missioned, and Sister Ellen Marie became the nursing supervisor of the Male Medical and Radium wards on Eighth Floor. Sister Stella Maris was sent to the hospital to supervise the nursing services on the west side of the Surgical floor.

The Director of the Sisters' Division echoes the appreciation expressed in the annual reports of the Division's department directors. A deep gratitude is especially felt for the program of improvement in the Student Nurses' Residence. As the extensive renovations approach completion, the Sisters look forward to the work of the coming year with renewed strength and confidence. The continued interest and cooperation of the hospital administrator and the Board of Directors in recognizing nursing needs will make possible the removal of the limitations which have hampered the development of standards for total patient care.

Respectfully submitted,
/s/ SISTER ALPHONSA
Director Sisters' Division

NURSING SERVICE DEPARTMENT

Director, Sisters' Division

Sister Alphonsa, R.N., B.S., F.A.C.H.A.

Director, Nursing Service

Sister Regis, R.N., B.S.N.Ed.

Assistant Directors 3

Coordinator, Inservice Education 1

Assistant Director, Inservice Education 1

Instructor, Inservice Education 1

Professional Nurse Staff:

Supervisors:

Daughters of Charity 11

Lay Supervisors 7

Assistant Supervisors 77

Head Nurses 120

General Duty Nurses:

Full-time 73

Part-time 15

Nonprofessional Staff:

Practical Nurses 300

Psychiatric Aides 17

Nurse Aides II and III 717

Nurse Aides I 77

Central Service Workers 142

Clerical Workers 91

Miscellaneous 39

The above figures essentially reveal that at the end of another fiscal year, the number of employees in the Nursing Service Department is practically the same as at the beginning. Of significance is the decrease, by 18, in the number of General Duty Nurses. Employed to give much-needed bedside nursing care and to maintain controls over ward supplies and equipment, this vital group of employees becomes smaller with each passing year. The deficiency of General Duty Nurses has adversely affected the quantity and quality of nursing care available to the patients, and it has perpetuated the turnover in the nursing staff. The record speaks for itself, for in this fiscal year, 132 professional nurses and 70 practical nurses were employed. During this same period, 141 professional nurses and 78 practical nurses resigned from the Nursing Service staff. Reasons for leaving are tabulated below:

| Reasons | Professional Nurses | Practical Nurses |
|-----------------------------|---------------------|------------------|
| Leaving the city | 49 | 16 |
| Better position | 29 | 8 |
| Home responsibilities | 20 | 17 |
| Pregnancy | 15 | 8 |
| Personal | 9 | 16 |
| Ill health | 7 | 13 |
| Further education | 9 | 0 |
| Retirement | 2 | 0 |
| Death | 1 | 0 |

Conditions identified, which prompted resignations for personal reasons and better positions, were the persistent practice of admitting "over" patients to the wards, overwork, insufficient pay with no guarantee of a meritorious increase in salary, lack of supplies, having to work with antiquated equipment, dissatisfaction with working conditions, rotating shifts, and having to perform many chores which are non-nursing in nature. Among those leaving because of home responsibilities were some who would have remained at Charity Hospital had the salary for the position been commensurate with the work assignment, and with the wages paid to necessary domestic help at home. In the highly competitive field of securing and keeping professional nurses in hospital employment, thought must be given to those reasons for termination of employment and remedial action taken if Charity Hospital hopes to accomplish its objectives. Until the professional nurse staff in the Nursing Service Department can be built up and stabilized, p.r.n. nurses are being employed to provide minimum nursing care. This practice at best is a poor substitute for an employed nursing staff, and the money spent would have brought greater returns had it been used to increase salaries and employ needed personnel.

A realistic appraisal of the nurse's work environment and the patient's nursing needs directed attention to organizational problems within the Nursing Service Department. Decentralization of the Nursing Service administrative functions, with corresponding authority to act, and firmer control by the Director of Nursing Service were clearly indicated. To accomplish this, a long-range re-organization plan has been launched which will eventually provide for an adequate Nursing Service Administrative Staff, available 24 hours a day, seven days a week. The administrative and teaching functions of the Nursing Service Office staff were reviewed and reassigned on a feasible basis. Positions were reclassified according to functions and responsibilities, and there are at present, three Assistant Directors of Nursing Service, a Coordinator of Inservice Education, and Assistant to the Coordinator, and an Instructor for on-the-job training of Nurse Aides.

Concurrently, work assignments and responsibilities of personnel in the nursing units were examined and a request to the Louisiana State Department of Civil Service for job audits brought favorable results. The practical nurse positions allocated to evening and night duty were reclassified upward and better qualified nurses were recruited for these jobs. Action on requests for additional Nurse Aide positions, and higher beginning salaries for professional nurses, was deferred, and improvement in these areas, moved slowly.

The Nursing Service of the general surgery units on fourth floor was divided into two areas, and each area placed under the full time supervision of a Sister Supervisor. Always an extremely active service with a heavy work load, this floor has consistently presented problems in staffing and supervision. It is anticipated that the smaller supervisory area approach will produce stability in the nursing staff and improved nursing care.

Recognizing the magnitude of the job to be done, attention was next focused on up-to-date equipment which would facilitate job performance. The Kardex System for management of nursing care of the patient was introduced, and the use of Ident-A-Bands for positive patient identification established. Extensive studies were done and reports made on the practicability of disposable syringes, Dulcolax method to replace enemas, and disposable tube feeding and enema equipment. Through the combined efforts of interested departments, the Addressograph for automatic recording of headings on chart forms was purchased and is scheduled for installation in the near future.

The Nursing Service Executive Committee has met monthly to discuss, plan, and implement these changes. The Committee on Nursing Policy and Procedure have been active, and both manuals are under study for extensive revision. Two Nursing Service records were revised and put into effect, the Weekly Nursing Time Sheet and the form for recording temperature,

pulse and respiration, which supplements the Kardex System. The Nursing Service and Nursing Education Coordinating Committee was organized during the year and has facilitated the work of educating students to become nurses. It has also concerned itself with the employment of student nurses in Charity Hospital on off duty time, directing their work habits and helping them to develop desirable attitudes.

Other activities included nursing service provided for 11,824 patients in the Recovery Rooms, 9,225 Obstetrical deliveries, and 5,288 Out-Patient visits to the Health Clinic by students, interns and residents and their families, employed professional and practical nurses, and department heads. In addition, this service gave 1,608 immunizations for Tetanus, Influenza, Typhoid Fever and Diphtheria.

INSERVICE EDUCATION

Preparing nursing personnel to function productively is a continuous process. For the first time in the history of the Nursing Service Department, successful and well attended programs were conducted simultaneously for all levels of nursing employees. Totaled in hours, 4,504 were completed by the professional nurses, 1,362 by the practical nurses, and 7,591 by the nurse aides. In addition, 76 hours were devoted to the formal orientation of professional nurses to their jobs, and 18 to practical nurses.

The Operating Room supervisory staff reported that 10 trainees have completed the Operating Room technician course, and 14 are enrolled in the present class. This program enables the Operating Room to function more effectively because it produces an additional source of nursing personnel who are prepared to give nursing service in the Operating Rooms.

Brief periods of observation and orientation in Premature Infant Nursing were presented to 30 professional nurses, 22 professional nursing students, 20 practical nursing students and 3 nurse aides. In cooperation with the teaching staff of the Tulane Psychiatry Service, a four-hour program was planned for 10 resident physicians.

The Cardiac Nursing Specialist began functioning on the adult Medical and Surgical services this year. Comprehensive study and careful preparation preceded this innovation in nursing at Charity Hospital. A head nurse with teaching ability, great interest in cardiac nursing, and extensive experience in the nursing care of patients with diseases of the cardiovascular system was selected for this important assignment. She received further preparation in teaching and supervision of cardiac nursing at the New York Medical College. Subsidies from the Federal Traineeship program of the Department of Health, Education and Welfare, and the Louisiana Heart Association, enabled her to enroll in this educational program. By readily sharing expert knowledge in this area of nursing with the nursing staff and the physicians, the Cardiac Nursing Specialist promotes quality nursing care for the patient with cardiovascular disease.

The Nursing Service Department was given the total responsibility for providing clinical practice areas for all nursing schools who send their students to Charity Hospital for development of nursing skills. Formerly managed by the Charity Hospital School of Nursing, this affiliate program involves planning the rotation schedules for approximately 50 professional nursing students from the Mercy Hospital School of Nursing and Louisiana State and Dillard Universities, and for 75 practical nursing students from the L. E. Rabouin Vocational School and the Booker T. Washington High School.

The Nursing Service Office staff participated in the educational programs of other hospital departments through formal instruction in Nursing Service Functions and Activities. These classes were conducted for student

nurses and medical technician interns, and an orientation program was given to the hospital's medical residents and interns. Nursing procedures, totaling 15 hours of instruction, were taught to 36 student technicians in the Department of Diagnostic Radiology. The staff participated in community health programs through membership in the New Orleans Hospital Council, the Louisiana Heart Association, Charity Hospital's Volunteer Advisory Committee, the American Red Cross Nurse Enrollment and Disaster Committee, the American Nurses' Association and the National League for Nursing.

RECOGNITION

Miss Lenore Andries, R.N., Supervisor of the Out-Patient Department, was a recipient of the Charles E. Dunbar Career Service Award at its sixth annual meeting. We feel justly proud of this attainment by a member of the Nursing Service staff who performs her duties in an exemplary manner.

Nursing Service employees who entered into retirement during the year numbered eleven, and of this number, five had twenty or more years of service.

We wish to express appreciation to the hospital administrators for the cooperation given which greatly facilitated efforts for the improvement of the nursing services. Much remains to be done, and in the coming year, we will continue to study and to evaluate material and personnel requirements for the improvement of the Department of Nursing Service. Recommendations for action will be forthcoming, with emphasis placed on resources for the establishment of additional non-professional positions in sufficient number to make possible the maintenance of a capable and productive nursing staff.

Respectfully submitted.
/s/ SISTER REGIS.
R.N., Director

ANNUAL REPORT OF THE DIETARY DEPARTMENT

July 1, 1963 - June 30, 1964

To the Board of Administrators and Doctor Leo J. Kerne, Director Charity Hospital of Louisiana at New Orleans.
Gentlemen:

The Annual Report of the Dietary Department for the fiscal year beginning July 1, 1963 and ending June 30, 1964, is herewith respectfully submitted:

ACTIVITIES AND ACCOMPLISHMENTS

The Dietary Department has maintained its staff of thirteen dietitians and has continued to improve with more adequate supervision. Request was made for additional dietitians to provide better coverage in all areas. In August 1963, approval was granted to increase the number of dietitians from fifteen to seventeen. Areas of responsibility were planned as follows:

- 1—Educational Director (Assistant Director)
- 1—Administrative Dietitian
- 2—Assistant Administrative Dietitians
- 1—Therapeutic Administrative Dietitian—In charge of Patients' Food Service
- 8—Therapeutic Dietitians (3rd through 11th Floors)

- 1—Administrative Dietitian Student Nurses' Home
- 1—Clinic Dietitian
- 1—Assistant Clinic Dietitian
- 1—Relief Dietitian

On March 10, 1964, the following Dietary Department employees were awarded pins for twenty-five or more years of service:

| | |
|-------------------|---------------|
| Mary V. Allenbach | Julia Hardin |
| Hilda Constant | Eunice Mayer |
| Ida Cross | Inez Roussel |
| Lillian Friloux | Edney Tabor |
| Clarence Guildry | Adele Toliver |

Revision was begun on the Dietary Department employees' handbook. Regular meetings for all patient food service employees—full-time and part-time—were planned and followed through from September to May. It was so successful that a similar plan for teaching employees will be used for next year.

The revised Charity Hospital Diet Manual was distributed throughout the hospital on January 17, 1964. Copies were also made available on request for staff doctors, residents and interns.

Many requests from outside hospitals, doctors, and dietitians were received. A fee of \$2.00 per copy was charged for diet manuals sent outside the hospital.

The activities of the various Dietary Department Units are covered in the following order:

1. Main Kitchen, Storeroom and Personnel Food Service
2. Patient Food Service
3. Formula Room
4. Student Nurses' Residence
5. Nutrition Clinic
6. Dietetic Internship Program

Main Kitchen, Storeroom and Personnel Food Service

Four definite menu cycles for the entire year have been completed, consisting of a Fall, Spring, Summer and Winter cycle. Each cycle consists of four weeks of menus, and each cycle is repeated three times consecutively.

A new 6-pan steam table has been added to the Main Kitchen, along with a 6-foot grill and two 50 lb. capacity deep fat fryers. The steam table area has been completely rearranged, producing a much more efficient working condition and a better flow of traffic from service area to dining room. Two Hobart mixers, 80 quart capacity, have been purchased. One is used for patient food production, the other for personnel food production. These mixers have helped improve the quality of food produced, as well as reducing production time.

Extensive repairs were required on the patient side revolving oven. Two pans of meat became jammed between shelves while rotating, spilling grease on the bottom of the oven, which became ignited and damaged the insulation and motor. This cost of repair was fully covered by insurance.

Extensive repairs were also made on the garbage room. The walls were re-tiled, the ceiling replastered, and a new refrigerator unit installed.

Two electric typewriters were purchased, one for the Main Dietary Office and one for Office No. 2.

The Dietary Office No. 2 was air-conditioned. This was badly needed because of poor ventilation in this room which accommodates five people. The air-conditioning has improved the efficiency of these employees considerably.

Comparative figures of meals served are as follows:

| | 1963-1964 | 1962-1963 |
|--------------------------------|-----------|-----------|
| Patient Meals | 1,922,503 | 2,023,518 |
| Personnel Meals | 1,078,587 | 1,096,908 |
| Total Meals | 3,001,090 | 3,120,426 |
| Special Meals Served | 160,167 | 85,111 |
| Infant Formulae Prepared | 118,951 | 118,684 |

Patient Food Service

The 3rd Floor received a new Savory Toaster with 8 racks, which toasts 24 slices of bread.

Outlets for plugging in hot food carts were installed on both solariums where cafeteria style service is provided for patients.

On the 4th and 5th Floors jot sheets at the Nurses' station on each ward were replaced by a Kardex file. This necessitated a readjustment in our method of checking trays.

The 4th Floor Dietitian's office was moved on a request by Sister Alfonsa from next to the east elevators to the far end of the east solarium.

Two carts for serving milk and ice cream to the patients were purchased for the 4th Floor.

A Unitray food cart was purchased for the 6th Floor Infirmary, which is used in transporting meals from the Main Kitchen to the 6th Floor area. This accommodates the completely assembled trays, and consists of two sections, refrigerated and heated. This cart has proven most satisfactory, enabling us to serve hotter and more palatable meals to infirmary patients.

In July 1963, two part-time employees were hired to work in the Outside Units to eliminate the need of full time employees working split shifts.

One employee—Julia Hardin—retired in December 1963 after 34 years of service at Charity Hospital.

The Dietary office and pantry in the Dibert building were painted.

In compliance with recommendations made by the Health Department representative, a partition was built in the Colored TB dishroom to separate the dishwashing area from the area used by other hospital personnel in transporting garbage and trash to the outside of the building where trash and garbage are placed prior to pick-up.

Formula Room

Routine repairs were made on the bottle brush machine, refrigerator, autoclave, air-conditioning, sinks and light fixtures. The ceiling in the storage room was repaired.

A new door was installed on the autoclave.

The following new equipment was purchased:

- 18—Stainless steel baskets
- 8—Covered stainless steel stock pots
- 1—Stainless steel bottle washing sink
- 2—Non-electric pot sterilizers

Student Nurses' Home

Cost accounting was transferred from the Student Nurses' Home to the Main Dietary Office. Necessary records were made available to the Main Office where the food cost will be calculated and shown on the budget for the School of Nursing.

Renovation began on the basement and first five floors in February 1964.

Nutrition Clinic

During the past year a total of 17,931 patients were seen and instructed on special diets in the Nutrition Clinic. Of these, new reduction diets totaled 1,176, and reduction revisits totaled 2,339.

The number of diabetics instructed individually and reviewed on their diets was 4,038. Besides the individual diabetic instructions, 171 patients relatives, and attendants, attended diabetic classes at which supplementary instruction is given every Friday afternoon.

Various other special diet instructions, included the following diets, variations, and combinations: normal, soft, bland, milk and cream, dumping syndrome, high protein, low protein, colostomy, low residue, sodium restricted, low fat, low cholesterol, ketogenic, high vitamin, high caloric, low purine, high potassium, gluten free, acid ash, alkaline ash, low phosphorus. These totaled 650; various diet revisits totaled 1,652.

Obstetric clinic referred 5,188 pregnant women for diet instructions which are given in classes. Two or three classes are held daily.

4,607 were instructed on normal pregnancy diets.

178 were instructed on toxemia diets.

379 were instructed on toxemia-reduction diets.

24 were instructed on reduction diets.

Total broken appointments for revisits of reduction and various other diets were 1,930.

Only one dietetic intern was scheduled for the Nutrition Clinic, because the remainder of the class had completed the work prior to July 1963.

Eighty-eight student nurses rotated through the Nutrition Clinic. None were scheduled during several weeks, and not more than three were assigned for only one week. Better communications were established with the School of Nursing.

New visual aids for use in instructing patients and/or student nurses include mimeographed pamphlets with bland recipes and suggestions, a wall poster urging use of fruit, and a notebook of milk facts and uses on various diets.

The patient record files were improved by a new procedure to keep them up-to-date; death records are checked periodically in the admitting department and death notices from the coroner's office and Tumor Registry are used.

The revised diet manual was published during this year, and the Nutrition Clinic diet instruction sheets for the patients were revised to correspond to the new diet manual.

Dietetic Internship Program

Five dietetic interns completed their internship and were granted membership in the American Dietetic Association on August 31, 1963, making a total of 228 interns completing the course since its establishment on July 1, 1944.

Three of the dietetic interns from this class accepted positions on our staff and are still with us.

Necessary changes have been made within the department to adjust to the withdrawal of the Dietetic Internship. Inquiry has been made into the possibility of re-establishing the Dietetic Internship at Charity Hospital.

APPRECIATION

Our gratitude is extended to Dr. Kerne and his Assistants, the Board of Administrators, the Sisters, the Medical and Nursing Staffs, the Engineering, Maintenance, Personnel and Purchasing Departments, and all other Departments of the Hospital, for the assistance and encouragement they have given us this past year.

Respectfully submitted,
/s/ CLYDE B. MOORE
Food Service Director

HOUSEKEEPING DEPARTMENT

The annual report of the Housekeeping Department for the fiscal year beginning July 1, 1963, and ending June 30, 1964, is herewith submitted.

The turnover of personnel, including the Housekeeping, Linen and Sewing Section, and Professional Student Living Quarters was sixty-six. Of this number there were 50 resignations and 16 removals. Two retired by age limit regulations.

Five Housekeeping employees received recognition for twenty-five or more years of service at Charity Hospital.

Six positions, (three Custodial Worker I, two Custodial Worker II and one Chauffeur position) which had been abolished in 1962, were reactivated. One new Custodial Worker I position was established. With these additional personnel, complete housekeeping responsibility was assumed on the Ninth floor.

Twelve employees were transferred to other departments with promotional increase, and four were promoted to higher classifications in the department.

Four hundred thirty-four mattresses were renovated; 326 for adult beds, 108 crib mattresses.

Window cleaning services were continued by contract with the National Building Services and Maintenance Company.

Pest control work has been improved by the arrangement made for consultation services of the Southern Exterminating Company. The contract began January 1, 1964.

Two new battery powered automatic floor scrubbing machines were purchased and put to use which has been a valuable aid in better floor cleaning in ward units. Five new Holcomatic floor polishing machines were purchased replacing obsolete equipment.

The following linen replacements were made:

| | |
|---------------------------------------|----------------------|
| 9,976 Large sheets (adult beds) | 48 Arm basin covers |
| 7,489 Sheets 54" (roller) | 634 G U bags |
| 1,300 Crib sheets | 696 Slings |
| 660 Bedspreads | 288 Bed pan covers |
| 13,960 Pillow cases | 493 Breast binders |
| 1,072 New blankets | 432 Thomas splints |
| 2,076 Receiving blankets (baby wraps) | 500 Leggings |
| 673 New pillows | 3,714 Restraints |
| 15,171 Patient gowns | 1,074 Hamper bags |
| 2,731 Pajamas | 91 Shower curtains |
| | 124 Cubicle curtains |

| | |
|----------------------------------|---------------------------------|
| 1,786 Robes | 216 Dresser scarfs |
| 23,088 Birdseye diapers | 134 Damask table cloths |
| 145 cs Disposable diapers 400/cs | 61 Polurethane roller pads |
| 95 cs Disposable diapers 576/cs | 12 Polyurethane RX table pads |
| 4,717 Large pads | 1,205 Plastic mattress covers |
| 2,080 Bassinet pads | (adult) |
| 50 cs Disposable pads 300/cs | 18 Plastic crib mattress covers |
| 14,022 Bath towels | 545 Plastic pillow covers |
| 12,884 Huck towels | 73 Roller pads covered |
| 4,294 Kitchen towels | 15 RX table pads covered |
| 15,107 Surgical towels | 16 Plastic equipment covers |
| 7,804 Terry wash cloths | 716 Aprons |
| 96 cs Disposable wash cloths | 600 Operating gowns Doctors |
| 500/cs | 2,548 Doctors caps |
| 13,542 Surgery wrappers | 500 Scrub shirts |
| 552 Slit sheets | 670 Scrub trousers |
| 616 Eye sheets | 2,758 Scrub dresses |
| 424 Special pieces | 916 Nurses second gowns |
| 148 Armboard covers | 774 Reversible front smocks |
| 972 Blood pressure App. cuffs | |

We acknowledge with grateful appreciation the interest and support which has been extended to the Housekeeping Department and Linen Section by the Board of Directors, Dr. L. J. Kerne and his Administrative Staff during the past year.

Respectfully submitted,
/s/ SISTER CLARISSE
Director of Housekeeping

ANNUAL REPORT OF THE CHARITY HOSPITAL SCHOOL OF NURSING July 1, 1963 - June 30, 1964

Dear Doctor Kerne,

The annual report of the School of Nursing for the fiscal year ending June 30, 1964, is herewith submitted:

ACCREDITATION

The School is approved for accreditation by the National League for Nursing and the Louisiana State Board of Nurse Examiners. A re-visit for continued national accreditation is scheduled for 1968; an interim report to this Agency will be submitted in 1965.

EDUCATIONAL PERSONNEL

There were twenty resignations and twenty-three replacements in the teaching personnel for the current year. The resignations according to education and preparation were as follows:

- Instructor I (R.N.) (3 positions)
- Instructor II (R.N. plus B.S.) (13 positions)
- Instructor III (R.N. plus M.S.) (3 positions)
- Ass't. Director II (M.S.) (1 position)

Of great help has been the reactivation of several frozen positions. In this category, five instructor and two typist-clerk positions have been filled.

Additional positions established have been four Instructor II positions. One II position has been reallocated to a III. One guard position has been reallocated to Motion Picture Projector II.

Teacher education programs included a two-week Faculty Workshop scheduled when faculty were free of student teaching and any other obligations. The workshop was highlighted by a three-day seminar led by Dr. Dorothy W. Smith, noted author and educator.

Throughout the year there was faculty representation at conventions, conferences, workshops, study sessions, some of which are listed:

Louisiana State Nurses Convention, Middle Management Training, American Nurses Association Convention and Clinical Sessions, In-Service Education, State Board Program for Testing, Alcoholism Seminar for Nurses, Symposium, Mental Health Consultation in Community Agencies, American College of Surgeons Program for Nurses, Louisiana Heart Association Scientific Sessions for Physicians and Nurses, Louisiana Association for Mental Health Program.

STUDENT WELFARE

Total number of students living in residence is 325: Charity students, 277 anesthesia students, 48. There are three staff members.

At this time, the building is undergoing extensive repairs of the first five floors. This includes new flooring, repair and replacement of plumbing, painting; combination system of air conditioning and heating; florescent lighting. A new fire alarm system is being installed throughout the building.

An intercommunication system between telephone switchboard and students' cafeteria is being added; also, four new trunks to the present telephone system. A new amplifier system for lobby areas and students' cafeteria to play records and connect with AM/FM radio stations is planned.

The remaining floors, 6th through 14th, should be given top priority for renovation and repair. Also quite important is the need to replace and repair the furnishings of the entire residence. In student rooms there is one desk for two students; one chair for two students. There is one dresser with three drawers for the two students. Some type of wall unit to hold books and reference material is needed.

AFFILIATIONS

Discontinuance of the affiliation program has been completed.

STATISTICS

| | |
|--------------------------|-----|
| Charity Students | 277 |
| Students graduated | 83 |
| Students admitted | 160 |

| Teaching Personnel | 20 |
| Clerical | 3 |

RECRUITMENT AND FINANCIAL AID

Open House for high school students was held January 10, 1964, attended by 97 students, representing 14 high schools. Approximately 1,000 catalogs were mailed in answer to inquiries of interest in entering our school.

Four hundred sixty applications were processed. Of this total, 195 applicants were accepted, 122 from Louisiana. However, on the entrance dates 151 enrolled, 93 being from Louisiana.

Total number of applicants rejected amounted to 162; 98 from Louisiana.

The Hospital granted loans of \$110.00 to two students, and to one student for \$75.00. The W.K. Kellogg Foundation Loan Fund at Charity granted 42 loans for personal expenses. These loans ranged from \$10.00 to \$65.00 making a total of \$1,231.00 for the year.

Scholarships sponsored by civic and philanthropic organizations were granted to 22 students. Amounts given ranged from \$117.00 to \$750.00, making a total of \$7,522.00.

Students employed at Charity Hospital on a pay basis during their free time worked a total of 3,224 days during this fiscal year ending June 30, 1964.

RECOMMENDATIONS

Refurnishing the student nurses' residence: bedrooms, lounges, offices.

Completion of the renovation and repair of the student nurses' residence.

Consideration to a new Education Building or extensive repairs to the present building.

Addition to the student nurses' residence; combined auditorium-gymnasium above the present parking area on Gravier street.

Provide mechanical control to entrance of School of Nursing parking lot on Gravier street or provide a guard on day shift.

ACKNOWLEDGMENTS

The Administration of Charity Hospital at New Orleans and the Hospital Board of Administrators have devoted much time and energy to the tremendous needs of the school both in its faculty and in its physical facilities; we are very grateful for the confidence placed in this department and for the improvements achieved up to this writing.

Respectfully submitted,
/s/ SISTER BLANCHE
Director, School of Nursing

Summary of the activities of the Russell L. Holman Cytology Lab, the Department of Pathology, Charity Hospital of Louisiana in New Orleans.

In the years 1963-1964 the laboratory processed 11,088 specimens in 1963 and 11,299 specimens in 1964. This represented cell samples from patients from a variety of services in the hospital. The vast majority were those from patients on the gynecological services and the main indication was for the detection and diagnosis of carcinoma of the uterus. A number of women on the obstetrical services were also screened for carcinoma of the cervix. The remainder of the specimens were largely sputa for detection for carcinoma of the lung, urine samples for the detection of carcinoma of the bladder and kidneys. There were spinal fluid examinations, body cavity fluid examinations, a few breast secretion smears also for the detection of carcinoma of the breast. During this period in our school of cytotechnology we trained twenty students (most of these students sought employment in the Louisiana area). The resident program in Pathology also benefited having the resident pathologists rotate through a laboratory for a period of usually one month per year for instruction. Workshops were conducted in the laboratory and also elsewhere at the annual meeting of the American Society of Cytology dealing with detection of carcinoma in the urinary tract. The laboratory has one cytopathologist and four cytotechnologists operating the diagnostic cytology laboratory and the school of cytotechnology. The laboratory examines specimens from patients seen on the LSU and Tulane services of the Charity Hospital. Both schools also have their own separate laboratories of cytopathology which assist, to some extent, this main laboratory at Charity Hospital.

ELECTROCARDIOGRAPH

The accompanying report shows the work performed in the Heart Station from July 1, 1963 through June 30, 1964. The figures refer to the number of electrocardiograms taken in each month, and to the number of arterial oxygen saturation studies, cardiac catheterizations, angiocardigrams, and cardiac fluoroscopic examinations.

Many sound tracings of the heart were made during the current year but the breakdown by months is not available although the data were placed in the patient's records.

During the year cardiac clinics were conducted every afternoon, Monday through Friday, in order to maintain a closer check on patients with heart disease. There was also a pediatric clinic which is conducted every Friday.

I. Electrocardiograms

|-----------------|-------|----------------|--------|
| July | 3,860 | January | 3,893 |
| August | 3,856 | February | 3,549 |
| September | 4,944 | March | 3,532 |
| October | 3,970 | April | 3,775 |
| November | 2,845 | May | 3,639 |
| December | 2,829 | June | 3,453 |
| Total | | | 44,154 |

| | |
|--|-------|
| II. Arterial oxygen saturation studies | 146 |
| III. Cardiac catheterizations | 134 |
| IV. Angiocardigrams | 107 |
| V. Cardiac fluoroscopic examinations | 1,917 |

Respectfully,

/s/ LOUIS LEVY, II, M.D.

ELECTROENCEPHALOGRAPHY

The following is the annual report of the Department of Electroencephalography for the year 1963-1964.

| | | | |
|------------------------------------|-----|---------------------|-----|
| July 1963 | 81 | January 1964 | 96 |
| August 1963 | 102 | February 1964 | 106 |
| September 1963 | 100 | March 1964 | 119 |
| October 1963 | 108 | April 1964 | 123 |
| November 1963 | 74 | May 1964 | 120 |
| December 1963 | 87 | June 1964 | 132 |
| TOTAL EEG RECORDINGS | | 1,248 | |
| TOTAL FETAL HEART RECORDINGS | | 34 | |

There were 16 holidays. 203 EEGs went unperformed for reasons as follows: 83 appointment cancellations too late to substitute, 84 patients failed to appear, 6 requisition forms unsigned by referring doctor and/or otherwise incomplete, 30 patients for whom EEG appointments had been made were discharged from hospital without cancellation of appointments.

Respectfully submitted,

/s/ H. THARP POSEY, M.D.

Director

Brain Wave Station.

HTP:pj.

LUNG STATION

During the fiscal year 1963-1964, evaluation of ventilatory function was performed on 863 patients. The dynamics of breathing and the distribution of ventilatory function were evaluated in 70 patients. In addition, arterial blood gas studies were done on 38 patients in order to evaluate pulmonary gas exchange.

Special diagnostic studies such as drill biopsy, thorocentesis, and the collection of bronchial exudate following inhalation of a heated aerosol were carried out on 458 patients. The case load and nature of this service makes it imperative to obtain special equipment for this purpose during the coming year.

Inhalational therapy for out patients has been reduced gradually over the past few years, but there is still a need for this service under the aegis of the division of Inhalational Therapy. One hundred thirty-seven treatments were administered during the year.

Respectfully submitted,

/s/ JOHN H. SEABURY, M.D.
Director, Lung Station

THE TUMOR REGISTRY

July 1, 1963 - June 30, 1964

PURPOSE:

1. To provide the medical profession of this Hospital with statistical and other data to indicate the size and nature of the cancer problem at this Hospital since January 1, 1948.
2. To make available to the medical staff information for research studies, for the evaluation of therapy, and for teaching.

ADMINISTRATION:

The governing Board of the Registry consists of the following representatives of the sponsoring agencies listed below:

Charity Hospital of Louisiana at New Orleans

Dr. Leo J. Kerne

Dr. Manuel Garcia

Louisiana State University School of Medicine

Dr. W. W. Frye

Dr. Ronald A. Welsh

Tulane University School of Medicine

Dr. E. T. Krementz, Chairman of the Registry Board

Dr. Robert Craft Smith

American Cancer Society, Louisiana Division, Inc.

Dr. C. C. Sprague

Louisiana State Board of Health

Dr. J. M. Bruce

Louisiana State Medical Society

Dr. Ambrose H. Storck

Loyola University School of Dentistry

Dr. Victor Halperin

During the year the Loyola University School of Dentistry joined the group of agencies which sponsor the Registry.

REGISTRY STAFF:

The following nine staff members, in addition to the Director, have performed the work of the Registry during the year; Analytic Assistant, Mrs. Marjorie S. Krennerich; Follow-up Investigator, Mrs. Marie Louise Nolan; Abstractors and Code clerks, Mrs. Betsy Green, Mrs. Loretta Soles, Mrs. Emma Lou Lighter, Mrs. Suzanne Carroll and Miss E. Scott Miles; Typist, Mrs. Carol LaBruyere, and File Clerk, Mrs. Myrna Fiorella.

FINANCIAL SUPPORT:

Support is derived from Charity Hospital, grants from the American Cancer Society, Louisiana Division, Inc., and the Louisiana State Board of Health, and from a contract with the Cancer Chemotherapy National Service Center of the National Cancer Institute.

STATUS OF RECORDS:

As of June 11, 1964, there were on file in the Registry, abstracts and punch cards summarizing pertinent data on 26,021 malignancies diagnosed in the fifteen year period, 1948-1962, in patients seen at Charity Hospital. In addition, approximately half of the cases diagnosed in 1963 had been abstracted and coded ready for inclusion in the deck as soon as all had been completed. The status of the patients (alive/dead) in 1963 or 1964 was known for all but 1.4 per cent of the cases.

SUMMARY OF 15-YEAR PERIOD, 1948-1962

A. Distribution of Malignancies by race and sex.

| Race: | | Sex: | |
|-------|---------------|--------|---------------|
| White | 13,095 | Male | 13,489 |
| Negro | 12,926 | Female | 12,532 |
| | <u>26,021</u> | | <u>26,021</u> |

B. Distribution of Malignancies by site of most frequent occurrence.

| | |
|---------------------------|-------|
| Cervix Uteri | 3,289 |
| Skin (excluding melanoma) | 3,232 |
| Lung | 2,420 |
| Breast | 1,999 |
| Prostate | 1,873 |
| Stomach | 1,433 |

These six sites account for more than fifty per cent of the total number of malignancies.

C. Status of Patients.

| | Number | Per Cent |
|-----------------------|---------------|-------------|
| Alive at last contact | 6,714 | 25.8 |
| Dead | 19,210 | 73.8 |
| Untraceable | 97 | 0.3 |
| | <u>26,021</u> | <u>99.9</u> |

D. Survival rates to fifteen years after diagnosis.

| | 1 Yr. | 5 Yr. | 10 Yr. | 15 Yr. |
|---------------------------|-------|-------|--------|--------|
| All sites | 55.4 | 30.9 | 20.7 | 13.9 |
| Cervix Uteri | 77.3 | 48.4 | 39.6 | 30.5 |
| Skin (excluding melanoma) | 91.4 | 68.8 | 48.3 | 28.9 |
| Lung | 16.5 | 3.9 | 1.7 | * |
| Breast | 74.7 | 37.9 | 23.7 | 15.6 |
| Prostate | 67.8 | 28.1 | 10.2 | * |
| Stomach | 21.0 | 6.0 | 4.4 | * |

*Rates may be unreliable because of the small number of patients surviving fifteen years—the entire span covered by the Registry.

REPORTS:

During the year, 50 studies were done for 46 Charity Hospital physicians and for 4 medical students working on their theses. Examples of these analyses includes the relationship of histology and type of treatment to survival time in cancer of the esophagus; correlation of age and stage at diagnosis with survival time in cancer of the prostate; sex, race and type of treatment in cancer of the larynx; relationship of stage at diagnosis and type of treatment to survival time in carcinoma of the cervix, and listings of case numbers of patients who had certain rare tumors.

The Registry has also given other Hospital departments upon request, recent information concerning specific patients and has, also upon request, given other hospitals information about policies and procedures involved in the operation of a registry.

PARTICIPATION IN NATIONAL PROGRAMS:

The Charity Hospital Registry continues to participate with nine other hospital registries and three central registries in the End Results Group, C.C.N.S.C. NCI. Dr. E. T. Krementz, chairman of the Registry Board of Directors continues to serve as the Executive Consultant of the group and

Dr. Robert F. Ryan is a member of the Medical and Technical Advisory Committee. Dr. Ryan, Dr. Ronald A. Welsh and the Registry Director attended the Annual Meeting of the Group, June 8-9, 1964, in Bethesda, Maryland

Eight of the ten Registry employees attended a ten-state Workshop on Registries sponsored by the American College of Surgeons in New Orleans on March 20, 1964. The Director, Analytic Assistant and Mrs. Marion Wogan, Technical Consultant to the Registry, served as resource people for three of the discussion groups.

The staff and I are most grateful to the chairman of the Board, Dr. E. T. Kremenz, who has given his time to the Registry's problems; to the Registry's three consultants, Mrs. Marion Wogan, Dr. Robert F. Ryan, and Dr. Ronald A. Welsh; to the Director of the Hospital, Dr. Leo J. Kerne, and to the many departments of the Hospital which have co-operated with the Registry this year as in the past.

Respectfully submitted,

/s/ MISS BRENT S. ROBERTSON,
Director, Tumor Registry

INTAKE

TRAFFIC SUMMARY

Total Intake traffic volume for the year in the Colored Section was:
44,690 Interviews processed.

In the White Section:
21,259 Interviews were processed.

In the Colored Section:
14,841 applicants were made Eligible.
10,936 applicants were made Ineligible.
3,554 applicants were given Temporary Eligibility.
2,037 applicants were given Limited Eligibility.
4,951 applicants were DPW cases, and
8,371 applicants are still being investigated.

In the White Section:
6,568 applicants were made Eligible.
6,549 applicants were made Ineligible.
1,273 applicants were given Temporary Eligibility.
2,889 applicants were given Limited Eligibility.
864 applicants were DPW cases, and
3,116 applicants are still being investigated.

Both sections registered declines compared with volume last year:
4,521 fewer interviews were processed in the Colored Section.

2,391 fewer interviews were processed in the White Section.

Average number of interviews processed in the Colored Section was:

| Daily | Weekly | Monthly |
|---------|--------|---------|
| 122.160 | 859.22 | 3724.02 |

Average White interviews processed were:

| Daily | Weekly | Monthly |
|-------|--------|---------|
| 58.59 | 408.43 | 1771.07 |

The highest monthly volume registered in the Colored Section was:
5,037 Interviews processed (July, 1963)

The lowest monthly volume registered in the Colored Section was:
3,401 Interviews processed (December, 1963)

In the White Section the highest monthly volume registered was:
2,121 Interviews processed (July, 1963)

And the lowest monthly volume registered in the White Section was:
1,509 Interviews processed (December, 1963)

SOCIAL SERVICE

Below is submitted the annual report of the Social Service Department for the fiscal year 1963-1964.

Since 1915 Charity Hospital has had an active Social Service Department. Established and operated originally by a group of volunteers in the community, the Department was reorganized on a full time basis by the hospital in 1921. Since October, 1929 the Department has been administered and supervised by fully qualified professional social workers. From the beginning the function of the department has been to provide help to Charity Hospital patients in resolving social problems which arise as a result of illness and disability. These problems occur in great variety, from fairly simple ones to those which are extremely complicated and require comprehensive study and planning. Each case is evaluated on its own merits and the appropriate service given when possible. Since no two cases are exactly alike, the types of services cannot be categorized but some examples are given here as illustrations.

A young man, married and the father of three small children, has developed a neurological disease which has resulted in partial paralysis of the lower extremities. The progress of the disease has been checked, and this patient has made great strides through use of physio-therapy facilities at Charity Hospital in learning to get about with braces and crutches. He will never, however, be able to return to his normal occupation which was waiter in an uptown restaurant. Before the patient's illness this family had managed reasonably well on his income. There are no savings, and relatives are not in a position to help. Since the patient's income has been cut off, immediate financial assistance has been secured through the Department of Public Welfare and the braces which the patient needed to get him out of bed have been secured through a voluntary agency. Current plans are directed toward rehabilitation with which the patient will be helped by the State Division of Vocational Rehabilitation, working with the social worker at Charity Hospital and the physio-therapy department here. Efforts will be made to train this man for a new occupation which will be compatible with his permanent disability, and then to find him a job in the work for which he will be trained. Thus, in this family, we hope to be able to prevent permanent dependence on public funds for support, and to salvage for the patient and his family their independence and sense of personal worth.

* * *

A very old, senile woman is seen in the Medicine Ward where she begs the doctor to keep her in the hospital because she cannot get the care she needs at home. The worker, on investigating, finds that this woman lives with a sister who is also quite old but is mentally alert. Discussion with the worker from the Department of Public Welfare which is providing these two with financial support through Old Age Assistance reveals that the sister is not physically able to give the patient the care she needs. Plans are initiated through the Welfare Department to find a place in a nursing home for our patient, since she cannot be discharged to her home.

* * *

An anonymous call is received concerning a baby which has just been admitted to the hospital. At the same time the doctor on the Pediatrics service calls the social worker to request an investigation of the circumstances surrounding this child's admission, because he suspects that the child has either been neglected or perhaps abused. The social worker requests that a visiting nurse make a study of the home situation and arranges to interview the child's parents. Investigation reveals that there is serious evidence supporting the doctor's suspicions. On the basis of the facts gathered, this case is referred to the Juvenile Court for more complete investigation and for legal action, if necessary.

Social workers are assigned to all wards and clinics of the hospital and each worker is responsible for referrals arising in the area to which he is assigned. In each case the worker must interview the patient, the doctor, nurse or other hospital personnel involved, and such relatives or family members as might be able to help. On the basis of the information gathered in this manner, a determination is made as to what is the actual need of the patient and how far he and his family can go in meeting this. If it is found that outside help is required, the worker must find the appropriate social agency in the community which is then called upon to give the help that is necessary. Such agencies include the Department of Public Welfare, the Division of Vocational Rehabilitation, private agencies such as Associated Catholic Charities, Family Service Society, Travelers Aid, institutions such as the Little Sister of the Poor, Touro-Shakespeare Home, or other nursing homes. The hospital social worker works mainly within the hospital proper.

Services to Patients

In all, a total of 40,668 patients were seen by the social workers for help as described above. This represents a slight decrease over the preceding year. It is impossible to evaluate precisely the significance of this decrease, since there are many non-specifics involved, as for example the fact that each patient's problem is different, and some require a great deal more time and attention than others. However, it is undoubtedly true that the smaller caseload reflects the decreased size of the social work staff.

Of the total number of patients seen, permanent records were kept in 13,696 cases. These were the cases in which recording was needed as a part of the helping process, or in which significant material needed to be preserved for future reference. In 26,972 cases no permanent record was kept.

The services of the social worker are not needed by every hospital patient, so patients are seen on a selective basis. This means that the department depends upon other sources for referrals. By far the largest number of referrals arise within the hospital: from doctors, nurses, patients, or other interested individuals. The numerical breakdown is as follows:

| Source of Referral | No. of Patients |
|------------------------------------|-----------------|
| Hospital Personnel | 14,601 |
| Department of Public Welfare | 2,710 |
| Other Agencies | 1,556 |
| Patient or Patient Group | 21,801 |
| TOTAL | 40,668 |

Since this hospital serves the entire State, patients seen in this department are from all parishes of the State. The greatest concentration is, of course, from the surrounding area, and there is a very small number of non-residents who, having been given emergency medical care, also need assistance from Social Service to enable them to make discharge plans. The geographical distribution of patients known to Social Service was as follows:

| Place of Residence | No. of Patients |
|----------------------|-----------------|
| Orleans Parish | 28,400 |
| Other Parishes | 12,077 |
| Other States | 191 |
| TOTAL | 40,668 |

Use of Funds

Since the income level of Charity Hospital patients is extremely low, many of their problems involve money. This Department does not, and should not, seek to meet the major financial needs of patients, since there are other agencies in the community to do so. However, there are many instances when

there is an emergency need which cannot be met by other community agencies. These tend to be small, non-repetitive needs such as for medication, small appliances, transportation, or brief periods of convalescence. The Department has at its disposal a small amount of money which can be used to meet the most pressing of these needs. The funds derive from the following sources:

| Funds | Amount Available |
|-------------------------------|--------------------|
| Stauffer-Eastwick | \$ 4,800.00 |
| Patients' Welfare | 1,200.00 |
| Weil Convalescent | 360.00 |
| Insulin | 6,000.00 |
| American Cancer Society | 1,218.40 |
| Special Donations | 1,040.01 |
| TOTAL | \$14,619.31 |

Funds were expended as follows:

| Reason for Using Fund | No. of Patients | Amount Expended |
|-----------------------|-----------------|--------------------|
| Medication | 21,183 | \$12,001.17 |
| Transportation | 299 | 480.00 |
| Maintenance | 18 | 105.00 |
| Appliances | 674 | 1,821.64 |
| TOTAL | 22,174 | \$14,407.81 |

Staff

Shortage of professional personnel has been a serious problem in the past, but has grown critical in the last two years. Through a process of attrition, denial of permission to fill vacancies when qualified personnel were available, the staff has dwindled to a point where there are 13 vacancies in a total of 28 allocated positions. This presents a grave threat to the continued existence of the department as a professional entity, and the problem merits serious consideration. During the year there were 16 resignations and 11 replacements. Four of the latter, however, are for the summer only. There were an average of 11 vacancies as compared with nine for the year immediately preceding, and of seven for the year preceding that. It is inevitable that there should be turnover in professional staff, since there is a great deal of competition for qualified social workers, and since salaries in this department are comparatively low. It is for this reason that it is vitally important that workers be employed when they become available.

Respectfully submitted,

MEDICAL AND PATIENTS' LIBRARY

The library staff remained the same during the past year. Mrs. Clothida B. Thompson, a very dependable and able librarian assistant and Mrs. Lily E. Twining, Librarian, kept the library running smoothly with the help of four medical students who are externs. Externs work at night and on the week-ends. Volunteers at various times gave their assistance with the ward rounds and carried magazines to the library. Everyone seemed to cooperate and faithfully fulfilled their duties.

Reading Room Activities:

The Library continued to have the basic texts needed for the medical staff. The collection of medical journals subscribed to and paid out of the

Henderson Fund are supplemented by gifts which come in regularly. The magazines which are used in the reading room are a combined collection of magazines which are ordered and charged to the Henderson Fund and supplemented with gifts and magazines of unclaimed mail.

The use of the reading room is opened to the medical and professional staff and the privilege is extended to the department heads of Charity Hospital. We also extend the privilege to visiting staff doctors.

Ward Rounds:

The Ward Rounds were made daily by the regular staff. Staff employees of the third floor come weekly for material to bring to their section. Books which are sent to the third floor are not catalogued. They are duplicates and gifts which are received. Gift books are sent to Dibert and some are shared with the student nurses' library.

The source of supply of magazines used for the patients come from L.S.U., Tulane, personnel from Charity Hospital, Clubs, business concern, Churches, unclaimed mail from a branch post office and volunteers. Many people from outside N.O. parish send magazines and paperbacks. We receive also magazines from the Gulf Coast. All our paperbacks are gifts. We do not catalogue them. Everything we receive is very much appreciated.

CHARITY HOSPITAL GUILD WORK

The following are some of the activities of the members of the Charity Hospital Guild for the Patients.

In addition to making and wrapping surgical dressings, forty-two Layettes were made and given as needed. A large amount of new and used clothing, shoes, books, magazines, scrap books, picture puzzles, games, and toys were distributed. Fifty pairs of slip on slippers were given to the Orthopedic patients.

At Christmas several hundred dolls and toys were given to the children on the ninth floor and to the children in the Tubercular, Polio, and Contagious wards. Ice cream, cake, and candies were also served to these children.

At Christmas and Easter a party was given to the children of the Tubercular and Polio wards by the Sarah Brown No. 6 Colored Workers of the Guild.

Special attention is given to the John Dibert Male patients by the Magnolia of the Louisiana Sunshine Society, of which Mrs. E. Bowman is the President. This society gave two parties, one at Christmas and one at Easter, for these patients. At Christmas each patient received a leather wallet with a one dollar bill, a bag of fruit and candy, and a pair of slip-on slippers. At Easter each patient received a beautiful plastic egg with a one

dollar bill. Bingo for prizes was played at each party, and prizes were given to the youngest and oldest patient.

These ladies meet weekly at the guild to wrap surgical dressings. They also make baby garments at home so that they may be added to the baby layettes every year. A complete layette is presented to the first baby born in Charity Hospital on Christmas or New Year's Day by these ladies. Gifts and refreshments were appreciated and enjoyed by all.

Guild Counselor Sister Alphonsa

| | |
|---|---------------|
| Urine culture tubes | 9,700 |
| Spinal tubes | 13,724 |
| Metal tubes | 6,000 |
| Culture tubes with wooden applicators | 23,225 |
| TOTAL | 52,649 |

ENGINEERING

BOILERS

The six boilers in the Power House with a capacity of 2,850 Horse Power are chemically treated and operated on monthly intervals and inspected yearly, externally and internally by the Travelers Insurance Company's Inspectors, cleaning of the boilers are made immediately after taking out of service. If repairs are needed between yearly inspections, the Inspectors are called and recommendations are completed. Painted Main Gas Line for boilers in basement of Power House which is done yearly to prevent deterioration because of heat and condensate moisture. Repaired baffle wall in No. 5 Boiler, repairs were made by Plibrico Sales and Service Company, completed boiler Feed Water Peerless Pump, Coppus Turbine Driven, size 2" x 3" x 10½"—250 G.P.M.—Ft Head 385. Shut-down Plant to install gasket on Heddar Valve on Main Steam Line connecting No. 1 Boiler; replaced deteriorated Copes with New Copes on Boilers No. 1-2-3-5-6, this unit controls Feed Water to the boilers, operating OK. Installed flow meter on Mezzanine Floor in Power House to register amount of make-up water taken from water softeners to add to insufficient return condensate required for boilers. Twenty-four hour reading is 11,200 gallons.

HEATERS ON MEZZANINE FLOOR IN POWER HOUSE

The heaters supplying Hot Water to the boilers in the Power House, Laundry and all Hospital Buildings are in satisfactory condition, they are operated on monthly intervals.

WATER SOFTENERS

Cleaned stone bed thoroughly in each Brine Tank, scaled and painted exterior of the four Water Softeners, also routine repairs on Units.

ICE WATER SYSTEM

Repaired No. 2 York 75 ton Ammonia Compressor, repairs consisted of New Compressor Rings and New Oil Rings, New Crank Shaft Bearings, changed oil in base of compressor.

ICE PLANT

Reconditioned entire interior in the No. 2 Brine Tank, repaired the Cooling Tower Fan, installed New Bushings and Seals; ice consumption has increased each year, Plant operating O.K.

WORTHINGTON AIR CONDITION COMPRESSORS

(1000 Tons to Main Building)

Made yearly inspection on both No. 1 and No. 2 Freon Compressors, checked alignment, installed New Thrust Bearing, installed New Purge Units on both Compressors, put 200 lbs. of Freon eleven (11) in evaporators on both Compressors, cleaned Condensers, painted interior and heads of both units.

TRANE AIR CONDITION COMPRESSORS

(700 Tons to Main Building)

Made thorough inspection and minor adjustments on system, operating O.K., these both Central Units deliver chill water to certain sections of the Main Building for Air Condition.

Lou Con Contractors installed 8 inch lines in Valve Room adjoining the chill water supply and return lines of the two Worthington and Trane

Central System so either system can be used for delivering chill water in the Main 18 inch line to the Main Building for Air Condition.

Installed New Marley Cooling Tower in Solarium for C.506 (Heart Ward, Main Building). Installed New Shaft and Bearings on Carrier Unit for Air Conditioning the Auditorium, Main Building.

Installed 5 Ton G.E. Air Cooled Unit 2nd Floor Sister's Home.

Installed 5 Ton G.E. Air Cooled Unit 3rd Floor Dormitory Sister's Home

At present 300 Ton Carrier Absorption Air Condition System is in progress in the Student Nurse's Home, Air Conditioning five floors.

Installed 10 Ton Air Condition Unit in the Telephone Operator's Room, Main Building, using chill water from the Trane Unit in the Power House.

Installed 7½ Ton Air Condition Unit in the Eleventh Floor Virus Laboratory, using chill water from the Trane Unit in the Power House.

EMERGENCY GENERATORS

General Motor 1000 K.W. Diesel Emergency Generator and Murray Turbo Generator 100 K.W. run Generators semi-weekly throughout the year. Installed New Governor on the Diesel Generator; replaced two 12 volt Exide Batteries that controls the solenoid valve that starts the Generator in emergency.

Made several Plant shut-downs for necessary repairs during the past year.

Employees in the Engineering Department repair window Units, ice making flake and cube machines and all equipment operated by the Engineering Department in the Hospital.

Hoping that this report meets with your approval, I remain,

/s/ WILLIAM H. SUTHERLAND
Plant Engineering

PEDIATRIC RECREATION PROGRAM**SIXTEENTH ANNUAL REPORT****April, 1964**

This is the sixteenth annual report of the Pediatric Recreation Program of Charity Hospital, a program originated and sponsored by the Greater New Orleans Section, National Council of Jewish Women to meet the social, recreational, ethical and emotional needs of the hospitalized child.

The physical setup for the Playroom remains the same as it has been in the past few years. The Playroom is very well equipped, and the equipment is renewed and replenished whenever it is necessary. (W903) 9th Floor. The Playroom is a highlight of all hospital tours and visitors from all over the United States and other countries are brought here. Everyone seems most impressed with our facilities and our happy children.

The need for this type of a program continues more than ever at Charity Hospital, and there is no other on-going program of a similar type in any way duplicating our services in this community.

FINANCIAL

The hospital continues to provide the salary of the assistant director and the Playroom aide. It allocates \$100.00 per month for the purchase of toys, equipment, craft materials and repairs. The hospital accepts the responsibility for maintenance, maid service, office supplies and free mailing. They also supply refreshments for routine Birthday parties for our hospitalized children.

The Greater New Orleans Section, National Council of Jewish Women continues to provide the director's salary and any other emergencies or needs that may arise during the year. The budget of this program was clarified and found workable and satisfactory. Council also supplies refreshments for our Training Program, and the Lake Area Branch cooperates in making and giving decorations and favors for special occasions such as the Thanksgiving and 4th of July Parties.

VOLUNTEERS AND VOLUNTEER GROUPS

Volunteer participation is a most vital and necessary factor in the operation of a successful program. Continuous participation is of value to both the volunteer and the program itself. The volunteer who works on a regular basis knows the children and is more efficient, proficient and effective in the discharge of her duties. These regular volunteers compensate in every way for a much larger number of transient workers. We are delighted to be able to report that the number of regular and dependable volunteers continues to grow. Spot Volunteers have been of great help and benefit to the Program for special projects and parties, and the ranks of these particular people has swelled in the past year.

Fewer volunteers have been needed this past year to efficiently operate the Program because of a lower census and curtailed program activities due to various childhood diseases in the Wards. The total number of workers was 278, which included 100 day workers, 152 spot volunteers, and 26 evening volunteers; they all worked a total number of 4,298½ hours. COUNCIL volunteers, their daughters and sons, numbering 74, served 791¾ hours.

The Junior League of New Orleans sponsors and coordinates a Puppet Therapy Program through the Pediatric Recreation Program. This year they had eight (8) programs, comprised of 12 members each time, to teach the children the making and operating of hand puppets. This is a most popular program with our youngsters and is of real and positive benefit to them.

Church and Fraternal groups have scheduled various activities for the Pediatric Wards and several sororities have given parties on specific occasions and donated movie cartoons for our Film Library.

The Lake Area Branch, National Council of Jewish Women, New Orleans Section, has continued to be both more interested and active in the Pediatric Recreation Program. They have made and provided very attractive and unusual party decorations, favors and gifts for all holiday celebrations during the year, and have had more of their membership participating at the hospital for these activities.

PROGRAM

Daily Playroom and Ward activities are from 9:30 A.M. to 11:30 A.M. and from 2:30 P.M. to 4:30 P.M., Monday through Friday. On Monday and Wednesday evenings the activities are from 5:30 P.M. to 7:30 P.M. The Playroom activities for ambulatory patients include free play, music, games, arts and crafts and story-telling. Recreation for bed patients includes toy distribution, record players, radios, movies, television sets and bedside supervision of arts and crafts. In addition to this, all parties and programs are coordinated through the Recreation Program. Civic, Fraternal and community groups, as well as interested individuals have given parties during the year. Many of these groups have expanded their interests after their initial contact and have made additional contributions, both in time and money.

Crafts for teen-agers was resumed again this past summer, but was done on an individualized basis. Our Polaroid Camera has been in use more than ever, if this is possible, and the picture records of parties throughout the year is most complete. Some of the pictures have been used for publicity in various Council Bulletins.

Our outdoor playground is still not available for use because of further construction in the L.S.U. area.

In addition to the routine Birthday Parties this year, which numbered 50, large parties were held for Valentine's Day, Easter, the 4th of July, Halloween, Washington's Birthday, Thanksgiving and Christmas. The 1963 Christmas Party for the 9th floor children and Out-Patient Clinic Children was an overwhelming success, and larger than ever before. Over 1650 youngsters were given toys, games, ice cream and candy.

The Halloween Party is allocated to the evening group of volunteers, and is a very popular one with the workers as well as the children. The youngsters were delighted with their costumes and masks, and the occasion was a gala one.

PUBLICITY

Publicity for the year included radio, newspaper and television coverage for all Pediatric Recreational Program activities whenever it was possible. This included routine radio spots and announcements from both Hospital and Council levels, and our Christmas activities were publicized on radio and television programs prior to our Christmas parties.

For each issue of the Council Bulletin the Director has written up some facet of the Play Program and included pictures, to keep the general membership informed and aware of recreational activities going on in the hospital.

At one of the meetings of the Charity Hospital Volunteer Advisory Committee, Mrs. Harrison was asked to speak on the Recreation Program. She gave a short history of the Program, Council's responsibility and leadership, and showed movies of the recent Halloween and Christmas Parties.

DONATIONS

We have acknowledged all donations and contributions received during the past year. Contributions varied from used Christmas cards to doll clothes, from small toys to large hobby horses for the Playroom, from Carnival throws to checks, some being most generous. Thank-you notes are sent out by this Program for every gift, contribution, special party and event. The people of New Orleans have been most thoughtful, generous and responsive to the small patients of Charity Hospital and to this Program, which helps give these less fortunate boys and girls so much happiness while they are ill. The Lake Area Branch, Council of Jewish Women, has continued to be a vital part of this program. Council TV Story-tellers are also active in this program, telling the 4th of July and Thanksgiving stories in the Playroom dressed in appropriate costumes. Attached is a list of contributions and gifts received, and the names of those whose donations we acknowledged.

TRAINING

Orientation material for all new volunteers is routine. This is supervised by staff members and questions are encouraged about any and all phases of the Pediatric Recreation Program. The new volunteer is conducted on a tour of the 9th floor and all wards are carefully explained to her. At this time the new volunteer is told of the periodic training courses given during the year for both new and experienced workers.

Three (3) in-service training courses were held during the year for both the new and the more experienced volunteers. These included an Easter Hat and Bag Making Party and a Summer training program in arts and crafts. Luncheon was provided for these two meetings by Council, as this added "social" aspect helps bring out more volunteers. Training sessions for Student Nurses of both LSU and Dillard Universities were also held in the Playroom. As new members were added to the volunteer roster they were given their training on an individualized basis by Mrs. Harrison.

ADMINISTRATION

Director—Mrs. A. Harrison—source of salary is Council

Asst. Director—Mrs. Hugh Clark—source of salary is Hospital (Civil Service)

Playroom Aide—Mrs. Harriet Phillips—source of salary is Hospital (Civil Service)

The Policy Committee has met infrequently during the year as things have gone smoothly and numerous meetings have not been indicated. The total Advisory Committee has not been called together but HAS BEEN kept informed of all activities of the Program by notices and personal contact. The Director and Chairman continue to attend the Council Board meetings and there is a Council member sitting on the Charity Hospital Volunteer Advisory Committee.

The apparent ease with which the Pediatric Recreation Program is run, and its smooth functioning can be laid directly at the feet of Amy Harrison. Her friendship and comradeship with the volunteers, and her inborn ability to deal with and settle all the problems that arise on both Hospital and Council levels is the true reason behind the continuous success of the Pediatric Recreation Program. She gives strength and scope to the program. Her relationship with the hospital administration staff, personnel staff, Sister Supervisor, head nurses and volunteers is of the very highest caliber and SHE is the one directly responsible for the wonderful cooperation and all the facilities we enjoy in the hospital.

Mrs. Clark, our assistant director, continues to be the perfect compliment to Mrs. Harrison, wonderful as always, taking her responsibility easily and graciously. She too, maintains splendid staff-volunteer relationships, and she has a real flair for working with all the children on the 9th floor. The youngsters seem to sense her sincerity, warmth and interest in them, and

they react accordingly. She is on excellent terms with the Nursing Service and this results in fine cooperation from everyone. Mrs. Clark has been of untold help and benefit to this Program and we are most fortunate to have her as an assistant.

Harriet Phillips, the Playroom Aide, continues in her role of a valuable addition to the Pediatric Recreation Program. She gets along well with the staff, volunteers and children, accepts responsibility and is always efficient, cheerful, willing and pleasant.

It was with deep regret that we bid goodbye to Sister Margaret Rose, Supervisor of Pediatrics, after so many years of splendid cooperation and leadership, when she was transferred to O'Connor Hospital in San Jose, California. She had been one of the instigators and a motivating factor in setting up a Pediatric Recreational Program in Charity Hospital. We were all deeply sorry to terminate this pleasant and valuable association.

We welcomed Sister Mary Edward, who replaced Sister Margaret Rose, and noted her pleasure in the Recreation Program. She has been most cooperative and has some new ideas and suggestions that we know will be of value to the program.

| Stock Prescriptions Filled | 72,247 |
| Narcotic Prescriptions Filled | 14,230 |
| Total Prescriptions Filled | 230,142 |

The Pharmacy services all the wards, including such outlying areas as the Dibert, Breaux, and Contagious Buildings, Tulane Metabolic Ward, Tulane Arthritis Unit and the Tulane Cancer Clinical Research Unit.

In the general manufacturing laboratory and prescription counter, a total of 54,445 gallons were made. These included syrups, elixirs, liniments, lotions, mixtures and laboratory stains. 791 pounds of ointments and 2,409,000 tablets were also manufactured.

In the solution area, the total number of bottles of sterile solutions manufactured reached 207,310. These include 1000 cc and 500 cc sodium chloride, dextrose, etc. In addition to this 83,292 bottles of small size sterile solutions were made, and the number of sterile vials of vitamins, potassium chloride, phenobarbital, mineral oil, etc., was 19,312. Various dilutions of allergenic vials made for use in the clinics numbered 1,406. The grand total for the solution room stands at 311,320 units. This represents a tremendous savings to the hospital as commercially prepared products would cost many times our manufactured items.

Attached is a list of antibiotics and other classes of drugs purchased during the year.

Respectfully submitted,

/s/ SYLVIA BING

Director, Pharmacy Department

ANTIBIOTICS PURCHASED

| | |
|--|------------------|
| Aerosporin Sterile Power | 546 Vials |
| Aerosporin Otic 10 cc | 96 Vials |

MAINTENANCE

The Maintenance Department when fully staffed consist of 150 workers. At the end of the fiscal year there were 12 vacancies.

This department has handled 25821 written requests for maintenance during the past year. The following figures are given to indicate the volume of work and type of service rendered.

It must be noted that in the above figure 23905 maintenance work orders were issued (work orders are issued whenever necessary maintenance is required) and 1916 requisitions were handled (requisitions are required whenever services are rendered by the department other than necessary maintenance).

| | Work Orders | Maint. Req. | Total |
|-------------------------------|----------------|----------------|--------|
| Woodwork and Metal Work | 4,908 | 1,072 | 5,980 |
| Painters | 508 | 281 | 789 |
| Plumbers | 6,352 | 48 | 6,400 |
| Steamfitters | 1,579 | 54 | 1,633 |
| Masonry | 1,395 | 198 | 1,593 |
| Electricians | 7,845 | 199 | 8,044 |
| Machinists | 1,318 | 64 | 1,382 |
| | 23,905 | 1,916 | 25,821 |

INTERESTING NOTES

- 19 renovation jobs were completed.
- 39 serious leaks due to pipe deterioration.
- 9 major repairs to equipment.
- 6 pieces of new equipment installed.
- 2,123 pieces of new furniture or equipment manufactured under \$100.00.
- 66 pieces of new furniture or equipment manufactured over \$100.00.
- 5,016 gallons of painting material used.
- 1,910 new keys issued.
- 4,703 number of pieces of metal furniture completely stripped and refinished.
